LEED COORDINATOR (Leadership in Energy and Environmental Design)

Republic of the Philippines
DEPARTMENT OF LABOR AND EMPLOYMENT
 Bureau of Local Employment
 Intramuros, Manila

LEED COORDINATOR

(Leadership in Energy and Environmental Design)

A LEED Coordinator addresses organizational sustainability issues, such as waste stream management, green building practices, and green procurement plans.

LEED Coordinators create or maintain plans or other documents related to sustainability projects. They assess or propose sustainability initiatives, considering factors such as cost-effectiveness, technical feasibility, and acceptance. Other activities include monitoring sustainability indicators, such as energy usage, natural resource usage, waste generation, and recycling. They may also act as liaison officer to government and other organization (DENR-EMB, LLDA etc.).

QUALIFICATIONS

LEED Coordinators are **graduates of BS Engineering (Civil/Electrical/Mechanical), Architecture, Urban Planning courses or any related course who possess the necessary LEED Certification.** At least **2-3 years work experience** is required.

COMPETENCIES

Knowledge, Skills and Attributes

- Proficiency in Microsoft Office including Microsoft Excel, Microsoft Project & Timberline software
- Excellent interpersonal and communication skills
- Ability to multitask, prioritize, manage time efficiently, and work independently.
